Volatility

Bollinger Bands® use standard deviation of the closing price around a moving average to measure volatility. The Bollinger Bands® are presently wider than usual, as a result of greater than normal volatility that accompanied the recent price move. Events such as this may precede a pause or reversal in the near term trend.

Company Profile

Business Summary

TDK Corporation, together with its subsidiaries, engages in manufacture and sale of electronic components in Japan, Europe, China, Asia, the Americas, and internationally. The company operates through Passive Components, Sensor Application Products, Magnetic Application Products, Energy Application Products, and Other segments. The Passive Components segment offers ceramic capacitors, aluminum electrolytic capacitors, film capacitors, high-frequency components, piezoelectric materials, and circuit protection components, as well as inductive devices, including ferrite cores, coils, and transformers. The Sensor Application Products segment provides temperature and pressure, magnetic, and MEMS sensors. The Magnetic Application Products segment offers hard disk drives (HDD) heads, HDD suspension assemblies, and magnets. The Energy Application Products segment provides energy devices comprising rechargeable batteries, and power supplies. The Other segment provides mechatronics production equipment and camera module micro actuators for smartphones and other products. The company also engages in insurance and real estate agency businesses. The company was formerly known as Tokyo Denki Kagaku Kogyo K.K. and changed its name to TDK Corporation in 1983. TDK Corporation was founded in 1935 and is headquartered in Tokyo, Japan.

Disclosures

Data Source Identification

Market Disclosures

Past performance is no guarantee of future results.

Not all footnotes apply to all clients or all accounts.

None of the Information constitutes a recommendation by Schwab or a solicitation of an offer to buy or sell any securities. The information is not intended to provide tax, legal or investment advice. Schwab does not guarantee the suitability or potential value of any particular investment or information source. Neither Schwab, nor these entities guarantee the accuracy, timeliness, completeness or correct sequencing of this information nor warrants any results from the use of the information.

Securities are depicted for informational purposes only, and do not constitute recommendations, offers to sell, or solicitations of offers to purchase any security.

Reports are made available for informational purposes only and should not be considered as an individualized recommendation or personalized investment advice. Each investor needs to review an investment strategy for his or her own particular situation before making any investment decision.

Quotes Disclosures

Equities market data is provided from multiple sources including but not limited to Cboe One, Nasdaq Basic/Last Sale, and the National Market System Plan.

U.S. and Canadian index quotes are real-time, all other international index quotes may be delayed by as much as 15 minutes. Before trading, please check a real-time quote for current information.

Streaming quotes may update as frequently as once per second. Streaming may be disabled to maintain system performance.

Index and Volatility Disclosures

Indexes are unmanaged, do not incur management fees, costs, expenses, transaction fees or other related expenses and cannot be invested in directly. For additional information, please visit [schwab.com/indexdefinitions](https://www.schwab.com/indexdefinitions).

Schwab does not recommend the use of technical analysis as a sole means of investment research.

Investment returns will fluctuate and are subject to market volatility, so that an investor's shares, when redeemed or sold, may be worth more or less than their original cost.

Investments in foreign investments may incur greater risks than domestic investments. International investing involves special risk considerations and may expose an investor to greater volatility. Factors to consider include, but are not limited to, currency fluctuation, lower liquidity, differences in securities regulation, accounting standards, foreign taxation, regulations, and political risks. Investing in emerging markets may accentuate these risks.

Due to the limited focus of sector and currency funds, they may experience greater volatility, and a greater degree of risk than funds with a broader investment strategy. They are not intended to serve as a complete investment program by themselves.

S&P Country Specific BMI indices include equities chosen from the largest capitalization of those available from each country.

Options

Options carry a high level of risk and are not suitable for all investors. Certain requirements must be met to trade options through Schwab. Please read the options disclosure document titled Characteristics and Risks of Standardized Options. Investing involves risks, including loss of principal.

The price displayed may be delayed up to one minute from the time the page is initially loaded or refreshed. The price is based on the Cboe One Real-time Quotes or consolidated market quotes.

Option quotes are delayed for non-paying professional users or client of unknown status.

Options data is provided by the Options Price Reporting Authority.

News Disclosures

Schwab Network is brought to you by Charles Schwab Media Productions Company ("CSMPC"). CSMPC and Charles Schwab & Co., Inc. are separate but affiliated subsidiaries of The Charles Schwab Corporation. CSMPC is not a financial advisor, registered investment advisor, broker-dealer, or futures commission merchant.

Schwab Market Update is brought to you The Schwab Center for Financial Research which is a division of Charles Schwab & Co., Inc.

All other news sources used on Schwab come from independent third parties. Schwab or any of its subsidiaries are not affiliated with any of the other news content providers. Schwab is not responsible for the content, and does not write or control which particular articles appear.

Futures Module Disclosures

Futures trading carries a high level of risk and is not suitable for all investors. Certain requirements must be met to trade futures. Please read the Risk Disclosure Statement for Futures and Options.
